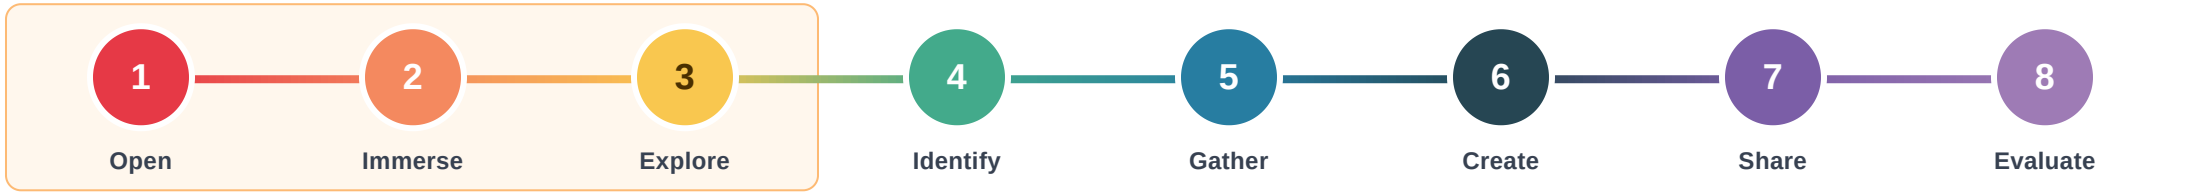
GID is the Learning Journey. PBL Organizes Milestones Within It.

Guided Inquiry Design® structures how students learn — PBL structures what they produce

GUIDED INQUIRY DESIGN® *The complete learning arc — from curiosity to deep understanding*



⚡ **THE LEARNING FOUNDATION**

Curiosity, background knowledge & readiness to question — the phases PBL most often skips or rushes

◈ **WHERE PBL MILESTONES LIVE**

PBL maps the project experience here — GID designs the learning process happening inside each phase

PROJECT-BASED LEARNING *Milestone map — where the project structure lives within the learning journey*

Entry Event + Driving Question	Research Milestones	Product Build	Presentation	Reflect

PBL organizes the work. **GID** designs the learning. Together they create meaningful learning.
